

B A B Y S U N S U I T

by Rae Hoekstra of made-by-rae.com

① CUT 2 RECTANGLES

② Sew sides together with 1/2 seam, right sides facing.

③ - Find center

④ - make 2 marks five inches from bottom, and connect to the top of the rectangle (at the corners) with a curve

④ - make 2 marks 2 1/2 inches from center on either side AND TWO INCHES tall.

⑤ - connect them to make a rectangle

⑦

⑧ Fold up 1/2" at bottom towards the wrong side on each side of the sunsuit

⑨ Fold this newly-folded edge towards the right side of the sunsuit, 1/2" from the bottom, stitch 1/2" from edge on either side.

⑩ Repeat for other side of the sunsuit. Now turn that little bottom section you stitched right-side out and press it.

⑪

Now fold under the curved edges 1/4" twice all the way around the bottom so the raw edges are hidden. Press. Also fold under 1/4" twice around the top of the sunsuit towards the wrong side + press.

⑫ Sew all of these folded edges down, including the bottom rectangles.

Bottom of sunsuit

top of sunsuit.

⑬

(OR sew buttons + buttonholes)

⑭ Shir around top of sunsuit for a few inches, with stitch lines no more than 1/2" apart.

Sew in a spiral around the top so you won't have to move your needle. Steam/press shirring to stick it up!

⑮ Shir around leg holes for 2-4 rows to gather leg holes.
